EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Damond Vadnais on February 1, 2011. The application has been amended as follows (line numbers in accordance with the claim listing filed on December 21, 2010):

In line 4 of independent claim 1, the word "generated" is replaced with the word "reflected."

In line 6 of independent claim 1, the word "reflected" is inserted before the phrase "from the living body."

In line 10 of independent claim 6, the word "reflected" is inserted before the phrase "from the living body."

In line 4 of independent claim 7, the word "generated" is replaced with the word "reflected."

In line 10 of independent claim 10, the word "reflected" is inserted before the phrase "from the living body."

In line 4 of independent claim 12, the word "generated" is replaced with the word "reflected."

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the claimed invention is directed towards a system and method for identifying a living body by extracting biological information from high frequency electromagnetic waves reflected off the human body. The closest prior art is Vanoni European Patent Application EP 0 197 810 A1. Vanoni discloses a method and device for recognizing an individual by extracting biological information such as a fingerprint from a Doppler signal and comparing the signal to a stored pattern in a database. However Vanoni teaches away from the claimed invention of using an electromagnetic wave in a frequency band ranging from 300 GHz to 30 THz by preferring the use of electromagnetic wave signals in the range of 9MHz to 11MHz. Furthermore Vanoni does not disclose extracting biological information derived from delay times of a first and second electromagnetic wave caused by a change of position in time of a portion of the living body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bobby Soriano whose telephone number is (571)270-7030. The examiner can normally be reached on Monday thru Friday, 10:30am to 6:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Henry Johnson III can be reached on 571-272-4768. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
